### Trout Hatchery

The TRAA trout hatchery is a popular activity of the TRAA as it's a great teaching tool with regard to the life cycle of a trout. Those involved with the hatchery get to see firsthand the development stages of the egg and the fry before their final release destinations to area streams.

### Rod Building

This will be a series of informal, hands-on sessions that will result in a spinning or fly rod that you have assembled and finished yourself. Registration will be closed when 15 paid-up participants have registered, or **January 11, 2019**, whichever comes first.
